MOTOROLA

The Desktop Rapid Rate Charger (part #WPLN4138_R) that ships standard with the CP200™ and PR400™ portable two-way radios **is capable of charging all three battery chemistries!!!**

Depending on which way the insert is flipped, this rapid rate charger (WPLN4138_R) is able to charge all three battery chemistries (NiCd, NiMH, and Li-ion). Please see below.

To charge the NiCd (NNTN4496_R) and Li-ion (NNTN4497_R) the insert needs to be placed with the tabs towards the front as the following picture demonstrates:

To charge the NiMH (NNTN4851) or the Slim Li-ion (NNTN4970) the insert needs to be placed with the tabs towards the back as the following picture demonstrates:
